Milk Shipping with Milk Stork[®]

We've partnered with Milk Stork to make it easy for working moms to get their breast milk home from anywhere in the world when they're away for business. They can ship, tote, or check breast milk—whatever works best for getting this precious cargo back home to baby.

How Milk Stork works:

- 1 Receive cooler**
Pharmaceutical-grade cooler is shipped directly to mom's hotel
- 2 Pack cooler**
Mom safely packs her pumped breast milk into the cooler unit from the privacy of her hotel room
- 3 Label package**
Mom either coordinates with FedEx or the hotel staff to allow the pre-labeled and post-paid package to be picked up or mailed from the lobby
- 4 Get updates**
Shipping and delivery updates are automatically emailed every step of the way

information](#)

Shipping breast milk with Milk Stork® makes it easier to continue to provide breast milk to baby when traveling for work.

Pump & Tote	Pump & Ship	Pump & Check
<ul style="list-style-type: none">• Pharmaceutical-grade shipping cooler with push-button activation (no pre-freezing or pre-cooling)• The size of a carry-on bag• Up to 60 hours of refrigeration• Shipped to mom's destination and ready to tote home• Reusable tote bag, breast milk storage bags, instruction card, and shipping seals	<ul style="list-style-type: none">• Pharmaceutical-grade shipping cooler with push-button activation (no pre-freezing or pre-cooling)• Provides at least 72 hours of refrigeration• Shipped to mom's destination, pre-labeled and pre-addressed with FedEx Priority Overnight shipping labels• Breast milk storage bags, instruction card, and shipping seals	<ul style="list-style-type: none">• Best for getting breast milk back home after an international trip.• Larger pharmaceutical-grade shipping cooler (the equivalent of three-to-five day's worth of breast milk for most moms) with push-button activation (no pre-freezing or pre-cooling)• Provides at least 90 hours of refrigeration• Shipped to mom's destination; mom checks the bag with her luggage on her return flight• Includes breast milk storage bags, a durable travel bag and a luggage tag

I just returned from business travel (NY to CA) and was so thankful to use your Pump & Ship product. It made traveling so much easier, and one less thing to worry about when leaving my four-month-old for the first time. Thank you!!!

– Becki C., Human Resources Director
